

Testimonials

Keith did not know much about personal my life or my relationships. He shared with me stories that have repeated again and again. It was easy for me to connect the dots and figure out who were the souls that had impact in my life(s). I am still processing some of the information shared by Keith and my decision making process is changing because of that. Keith clearly explained concepts that I did not know and helped me understand the new information, he asked critical questions that helped my understanding of the messages I was receiving. I am seeing my life in a different light and have a better understanding of my feelings and fears. I feel more relaxed and I am embracing those parts of me that I did not understand in the past. Keith. He gave me the gift of understanding and I am forever grateful. *Tatiana, April 2019*

Keith is very knowledgeable in many areas and when he told me about the soul alignment I was so excited to participate. I had been dealing with a lung issue for about six years and was hoping that he could tap into what emotions I was carrying that may be an underlying cause. The results were amazing. Keith discovered a past life in which I was holding a part of my mother's Soul out of guilt. The lung issue has cleared up and I am now feeling healthy and free of any past bonds. I am so grateful to Keith for taking this course and helping me to be healthy again. *Sandy Ferrier, Enterprise, Utah, 2019.*

Soul Realignment

Healing the Soul through the
Wisdom of the Akashic Records

Soul Realignment

Soul Realignment (SR) Overview:

Who are you at Soul level? SR is a Soul level healing modality that assists individuals to connect with their Divine Soul Blueprint (DSB) as it was originally created by Source. Source creates each Soul to express its Divinity in alignment with its DSB.

When the Soul chooses to incarnate into physical form, it experiences and expresses its Divinity in third-dimensional reality. Over multiple lifetimes, the Soul comes to understand that it is the creator of its experiences. The Soul also understands that the choices it makes while incarnate creates negative or positive karma depending on whether a choice is in or out of alignment with its DSB. This karma, negative or positive, is carried over into the next life and influences that incarnation. Your present-day life and experiences are the result of past and current life choices; this is often referred to as karma.

The power of SR healing modality is that it assists individuals in understanding how their Soul is designed so that choices made in this incarnation are aligned with their DSB. Choices made in alignment with one's DSB creates positive karma. Positive karma increases the flow of vital force energy, and the flow of abundance in all areas of one's life.

Akashic Records: often referred to as the "Book of Life" can be thought of metaphorically as the etheric cloud where everything that occurs in the universe is recorded. This multi-dimensional storehouse of universal information can be accessed. The most extensive source of information regarding the Akashic Records comes from the work of clairvoyant Edgar Cayce (1877-1945). Cayce possessed the ability to access any type of information via the Akashic Records. There are dozens of books on multiple topics Cayce authored during his lifetime. The healing power of Soul Realignment results from accessing and clearing negative Soul level karma from an individual's Akashic Records.
